Project Stage Implementation
Duration 2019 - 2021

Studies, Plans, Monitoring & Assessment > Plans

Complete the TMDL ag implementation plan for the addendums to the Bear River Basin/Malad Subbasin TMDL. By detailing actions needed to achieve load reductions, outlining a schedule of those actions and specifying monitoring needed to document action and progress toward meeting water quality standards, this implementation plan will provide a framework for local stakeholders to use to reach the goals established in the TMDL.

FY 2019: BR Addendum; 75 hours delivered; Deliverable - 40

FY 2020: BR Addendum; 300 hours assigned; Deliverable - Redirected to focus on DEQ TMDL priorities...

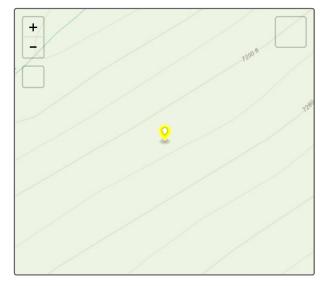

Key Accomplishments

• TMDL Plan Writing: 75 hours

Project Themes

- Agricultural Lands
- Habitat and Species
- Healthy Watersheds
- Water

Tracker tells stories at a broad-brush level. Individual project performance measures and expenditures should not be relied upon for complete and total accuracy and should be confirmed with a project's lead implementer. Project locations subject to confidentiality provisions under state and federal law specify the location of a local conservation district or USDA service center office.
